
CURRICULUM VITAE - JOHN DE LORENZO

"GENERAL SUMMARY":

BACKGROUND:

John has been working in the field of insurance / risk assessments / fire safety and risk management since 1986. Following a career with an international insurance company (3 years) and almost 17 years with an international risk management and insurance broker (over 8 years on overseas secondment), John formed DelFire Pty Ltd to fulfil his passion is to more directly involved with clients in the focused analysis and identification of asset protection risks as well as the delivery and assistance with practical solutions.

As a registered fire safety engineer, John is able to offer assistance and insight into fire safety compliance and alternative solutions as well as automatic, manual and passive fire system designs. John is also a Certified Practising Risk Manager (CPRM) with the Risk Management Institute of Australia and is well aware of professional management of corporate risks.

PROFESSIONAL EXPERIENCE:

Because of John's expertise, he is often called to assist clients in the assessment, design and/or commissioning of their fire systems, tracking and monitoring of recommendation (internal/external) responses, adhoc risk management help desk support and related services (insurance reviews, business continuity planning, etc.). This work supports the optimisation of client's risk profile and in setting the organisation's strategic risk management plans.

Often, an important aspect of a client's asset risk profile is the detailed analysis and presentation of complicated loss estimates. This is an area where John has excelled through the delivery of high quality investigations, reports and summaries. Applying his diverse skill sets in related fields has also seen John act as an Expert Witness as well as develop client's Business Continuity Plans.

PAST PROJECTS/CLIENTS:

John has assisted with projects across various industries and retail/commercial sectors for many major organisations. These include but are not limited too;

- Transurban Group (+10 years)
 - Warner Roadshow Theme Parks (8 years)
 - Diageo Australia (5 years)
 - Spotlight Australia (2 years)
 - Confoil Australia (Business Continuity Project)
 - Rio Tinto (3 years), BHP (specific projects)
 - Argyle Diamond Mine (specific projects 2 years)
 - Government of Singapore Investment Corporation, Real Estate (3 years, retail centres / commercial complexes)
-
